

EduLab session 3

Educational Laboratory on Citizenship & Sustainable Business Education
October/November 2021 – February 2022

<https://edulab4future.eu/>

CALL FOR APPLICATION

What is meant by Educational Laboratory sessions?

- a series of on-line learning activities in the field of citizenship and sustainable business development scheduled to be carry out during 10 weeks covering the period from October/November 2021 till February 2022;
- collaborative learning to stimulate social, civic and intercultural skills of learners (HE students, academics and practitioners) toward sustainable and fair operating business practices;
- better use of innovation and digital technology and support the development of relevant digital skills aimed at citizenship and sustainable business growth, strengthening cooperation between education and training, and the world of work;
- international environment nourished with good practice exchanges between students, teachers, and trainers from Romania, Italy, Bulgaria, Poland, and Czech Republic.
- covers key topics from Sustainable Development Goals (SDGs): Economic, Environmental, and Social concerns;

What is offered by Educational Laboratory?

- Modules to support e-learning experience on key subjects of Economic performance, Environmental performance, and Social performance.
- Practical learning resources as intercultural study cases and tutorial materials with analysis of Sustainability reports.
- Coaching and mentoring for developing homework and project – based applications in the area of Economic, Environmental, and Social development concerns.
- Support students' creativity and civic skills by active involvement in designing projects on Citizenship & Sustainable Business Development, as result of personalized learning sessions of EduLab work.

Which are the benefits for participants and target group?

- ✓ Gain different learning perspectives on Sustainable Business development.
- ✓ Better prepared to adopt suitable and opportune decisions for own career.
- ✓ Expanded professional experience in a multicultural environment.
- ✓ Increased motivation for adopting EU common values for sustainable and inclusive growth.
- ✓ Better motivated to induce changes by active citizenship, social cohesions, equity values and responsible businesses.

- ✓ Improved mix of skills: social, civic and e-skills, creativity and flexibility, more exposed to digital learning.
- ✓ Learn to adopt fair operating practices for accountable, transparent and responsible business behaviour.
- ✓ Earned Participation Certificates from project partners.
